

CableServ® BLE S Band-Split Kit

Product Description

To provide an easy and cost-effective transition from legacy 42-54 MHz band splits, CableServ® offers a Mid/High split solution.

The BLE S series Band-Split Kit, consists of new diplex filters, forward and reverse correction boards, as well as the related hard-wired components. The kit will reuse the existing gain blocks. A large assortment of reverse EQ's are available.

CableServ® offers training assistance to cable systems in the installation and set-up of this mid-split kit.
