

# CableServ® Cisco GM LE Mid or High Band-Split Kit

## Product Description

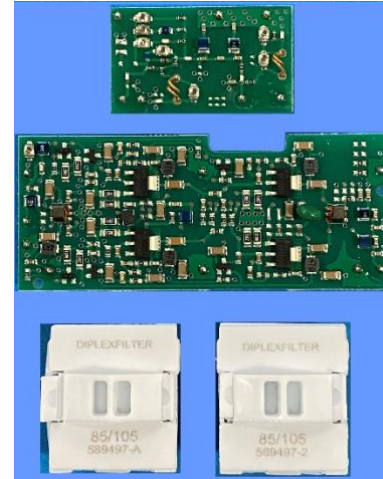

To provide an easy and cost-effective transition from legacy 42-54 MHz band splits, CableServ® offers a mid-split/high-split solution.

The GainMaker LE Band-Split Upgrade kit consists of new diplex filters, forward HPF/RC and a reverse amplifier module. The kit will reuse the existing forward gain blocks maintaining the original operating parameters.

CableServ® offers training assistance to cable systems in the installation and set-up of this Band-split upgrade kit.

## Applications

- Cisco GainMaker Line Extender Upgrade with mid-split or high-split band-split kit

CableServ Cisco GM LE Band-Split Kit

## Product Features
