

# CableServ® LE Forward Upgrade with Mid-Split/High-Split

## Product Description

CableServ® offers a cost-effective upgrade for legacy Cisco 870 MHz GainMaker LE to 1/1.2 GHz forward and 85/205 MHz reverse. The upgrade consists of a new main board, new duplex filters, as well as forward and reverse modules. This solution will replace the hard-wired gain blocks with plug-ins for ease in maintenance and will re-use the legacy housing and 12V power pack.

CableServ® offers training assistance to cable systems in the installation and set-up of this mid-split kit.

## Applications

- Cisco GainMaker 870 MHz Line Extenders

CableServ GainMaker LE Forward and Reverse Upgrade

## Product Features
