

# CableServ® GNA297/G3A/G4A Series 1GHz 85/105MHz Mid-Split Upgrade

## Product Description

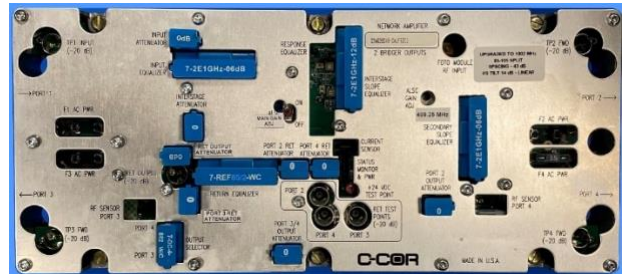

CableServ® offers an upgrade solution for modifying legacy GNA297/G3A/G4A series to 1 GHz, Mid-Split/High-Split band splits. The upgrade solution will replace the legacy mainboard, use new gain blocks, as well as reuse the legacy AGC, bode, chassis, and power supply.

This upgrade provides a cost-effective transition to 1 GHz downstream and as required Mid-Split/High-Split band split.

CableServ® offers training assistance to cable systems with the installation and set-up of upgraded modules.

## Applications

- GNA297/GNA298/G3A/G4A series of amplifiers
- Expand downstream to 1 GHz and Upstream to 85/204 MHz

CableServ G3A Mid-Split Upgrade Module

## Product Features

- Plug-in high isolation diplex filters
- Plug-in reverse response correction board
- 2-year warranty

---
