

# CableServ® ANTEC FTMB 870 MHz Upgrade to 1 GHz downstream and Mid/High Split

---

## Product Description

To provide an easy and cost-effective transition from legacy 870 MHz downstream and 42-54 MHz band splits, CableServ® offers a 1 GHz downstream upgrade with a Mid/High split solution.

The Antec FTMB 870 Upgrade consists of board level modification using performant Gain Block with new plug-in diplex filters.

Cableserv provides an assortment of Downstream and Upstream Equalizers.

CableServ® offers training assistance to cable systems in the installation and set-up of this mid-split kit.

## Applications

- Antec FTMB series of amplifiers

CableServ FTMB 1 GHz Mid/High Split

## Product Features

- Easy Setup
- High isolation diplex filters
- New Gain Block
- 2-year warranty

---
