

CableServ® OA4444S Series Upgrade to 85/105 MHz Mid-Split

Product Description

To provide an easy transition from legacy 42-54 MHz band splits, CableServ® offers an 85-105 MHz mid-split solution.

The Aurora OA4444S Mid-Split Upgrade consists of 4 new duplex filters, and 2 reverse dual amplifiers. This upgrade will not affect the existing downstream high-end bandwidth, nor the current downstream operational performance.

CableServ® offers training assistance to cable systems in the installation and set-up of this mid-split kit.

Applications

- This kit is made to facilitate upgrades to any Aurora OA4444S node.

CableServ OA4444S Upgrade Mid-Split Kit

Product Features

- High isolation duplex filters
- 2-year warranty
