

CableServ® OA4444S, OA4114H RF Upgrade to 1 GHz

Product Description

To provide an easy and cost-effective transition from legacy 870 MHz 42-54 MHz band splits, CableServ® offers a 1 GHz upgrade with Mid or High-Split solutions.

The downstream upgrade solution consists of board level modifications using performance gain blocks. As required, a new band split kit will be installed.

CableServ® offers training assistance to cable systems in the installation and set-up of this mid-split kit.

CableServ OA4444S and OA4114H RF 1 GHz Upgrade

Product Features

- Easy Setup
- New performance Gain Blocks
- High isolation diplex filters
