

CableServ® C-Cor NL 1 GHz Forward Band and Mid/High-Split Upgrade

Product Description

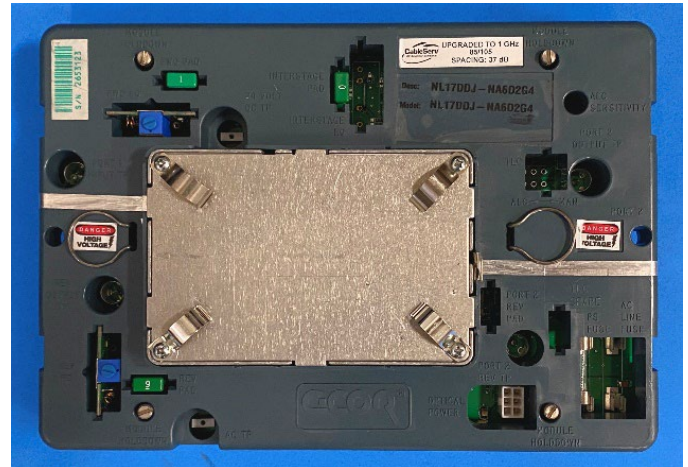

To provide a cost-effective transition from legacy 750/870 MHz downstream and 42-54 MHz band splits, CableServ® offers 1 GHz downstream with Mid/High split solutions.

The LN series upgrade consists of a new main board with all split defining components plugged in. New Gain Blocks will increase the legacy operating performances to allow a drop in upgrade without respacing. Available in AGC and manual configuration with AGC pilot as required.

CableServ® offers training assistance to cable systems in the installation and set-up of this mid-split kit.

Applications

- C-Cor NL series of amplifiers

CableServ C-Cor NL Series 1 GHz Downstream and Mid-Split/High-Split Upgrade

Product Features

- Easy Setup
- New main board
- High isolation diplex filters
