

# CableServ® Flex Net 700 LE Mid/High-Split Upgrade

## Product Description

To provide an easy and cost-effective transition from legacy 42-54 MHz band splits, CableServ® offers a Mid/High split solution.

The E7 series Mid/High-Split Upgrade consists of new diplex filters, as well as the related hard-wired components. The upgrade solution will reuse the existing gain blocks. CableServ® offers Reverse EQ's (fixed or variable) for use with this upgrade.

CableServ® offers training assistance to cable systems in the installation and set-up of this mid-split kit.

CableServ Flex Net E7 series Mid/High-Split Upgrade
